DETAILED ACTION

1. This communication is in response to the Response to Election/Restriction filed on 03.27.2008. The Examiner notes that the Requirement for Election/Restriction sent on 03.04.2008 was incorrect because Applicants cancelled claims 1-20, and added new claims 21-24 on 04.12.2004. Therefore, the Requirement for Election/Restriction sent on 03.04.2008 is vacated in via of this new Requirement for Election/Restriction.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Group I, claims 21-39, drawn to a system for enabling a customer to retrieve an invoice, over the Internet, classified in class 705, and subclass 34.

II. Group II, claim 40, drawn to a method for collecting billing information from a plurality of billing systems, classified in class 705, and subclass 10.

3. Inventions Group I, Group II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I, has separate utility such as administering revenue from complex subscriber groups. Invention Group II, has separate utility such as for providing offers to consumers using billing statements. See MPEP § 806.05(d).

Art Unit: 3687

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
